## Multi-Function Patch Panel with Changeable Front Plate

Overview

Multi-Function fiber patch panel is constructed by flexible design to achieve diversified applications, like in-filed fiber termination, pre-termination fiber cassette and RJ45 keystone terminaton. Provides professional cable management and ease of fiber termination with a cost effective mechanical pull-out mechanism.

1U Patch Panel

Features

- 1U and 2U versions (4 - 48 ports capacity)
- Easy to maintain and extend
- All known connector types such as SC, FC, ST, LC are possible to add into one patch panel

2U Patch Panel

Applications

- FTTx applications
- Datacenter LAN & WAN projects
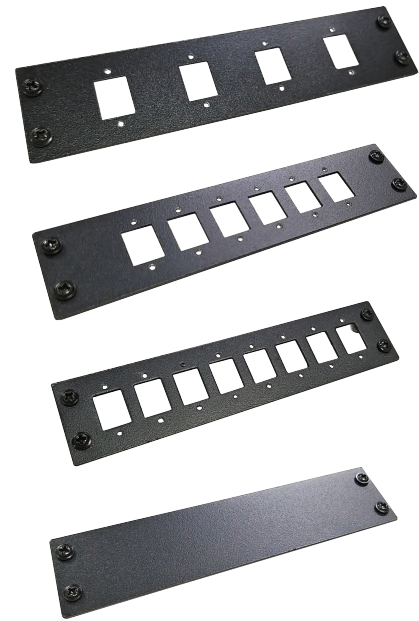

Available Options

ODRMB1UEM	1U empty fiber patch panel (without front panel)	1U Panel, Empty
ODRMB2UEM	2U empty fiber patch panel (without front panel)	2U Panel, Empty
OD4PSCPanel	4-port fiber SC front panel	4-Port, SC
OD6PSCPanel	6-port fiber SC front panel	6-Port, SC
OD6PSCPanel	8-port fiber SC front panel	8-Port, SC
OD Blank Panel	Blank panel
