Model	Part name	Size	Usage
PPBLK1U	1U Plastic blank panel	1U	19" used for blocking the airflow and aesthetic

Cable Duct

Material : t1.2 SPCC cold rolled steel.
Surface Finish : Degreasing, pickling, phosphoric, powder coated.

Overhead Cable Management System: Organized, Accessible, Manageable

- Overall cooling efficiency improves because conditioned air is not blocked by cable dams below the plenum.
- Valuable space is opened up within rack enclosures. Large high-density bundles lie flat to avoid harsh, damaging bends.
- Re-cabling due to moves, adds, and changes is faster and easier and consequently less expensive.

Model	Part name	Height	Usage
CDUCT600	Cable duct, 600mm enclosures	597	Apply to P1500 series
CDUCT800	Cable duct, 800mm enclosures	797	Apply to P1500 series
CDUCTEND	End cap		Apply to P1500 series
